

>> **Success Story**

GKB IP Solution Provides the Security of the University Teknologi Mara in Malaysia.

Background

The UiTM Malacca Campus had been seeking to improve its security and visitors identification management. The administrator is looking for the system to identify visitors and employees, monitor work areas, deter theft, and ensure the security of the premises and other facilities.

GKB's Local System Integrator in Malaysia thus helped the university deploy GKB's Diplomat IP Surveillance system with GKB's network cameras so that the university can achieve the remote monitoring and scalability advantages.

GKB IP Surveillance system is implemented by the UiTM Malacca Campus, to monitor its large facilities and control the general security, ensuring protection of the campus and its collections from theft and vandalism as well as to improve staff operational efficiency.

Solutions

After conducting a security risk assessment at the specific locations and identified the risky locations and communicated, along with demonstrating the appropriate solutions, namely the GKB IP cameras & NVR softwares to UiTM Authority.

A total of 16 GKB network cameras were installed on campus including 6 units of BX01 and 10 units of D01 were installed and video recorded in a Desktop Server embedded 64-channel NVR10 Video Management system. With the FREE 64-channel CMS system provides the university upgrading future.

Staff of campus use Viewer10 Client Video Software to access NVR PC Server, to perform live view, to playback, to take snapshot and record live view video, digital zoom in when performing playback, etc.

**Benefits**

The Diplomat IP Surveillance system significantly improves the safety and controllability over campus activities.

With this UiTM project reference, GKB successfully enter the higher education market with its Diplomat IP solution. GKB Diplomat IP Solution will have great opportunity to explore in education institutes and Government tender project in Malaysia market in the coming future.
