

Success Story >>  >> Al Fayroz Season Hotel

GKB Diplomat IP Solutions Offer a Better, Safer Staying for Hotel Al Fayroz Season in Saudi Arabia

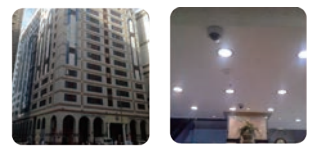

Background

Hotel Al Fayroz Season is located in central area in Medina, Saudi Arabia, where the Prophet’s Mosque is within a short walking distance. The hotel provides 506 rooms and suits, and accommodates more than 1500 guests. To have better protection of guests’ safety and optimize hotel quality, the management team proposed a need for reliable and flexible surveillance system. GKB professional IP solution, including Diplomat IP cameras and our most featured Cloud Platform secures Hotel Al Fayroz Season with an additional layer of security.

GKB Envoy™ NVR-10

Solutions

GKB team has already installed 140 network cameras in total with two 720P models: GKB D44624 and D34724 cameras. D44624 is a bullet-style, outdoor-ready camera with IP66 water proof and 2 way audio functions. D34724 is a vandal proof dome-style network camera. Both IP cameras support 8 video streams and PoE functions; GKB remote monitoring software -NVR10 and Viewer 11-enable hotel to centralize of operations for greater efficiency and effectiveness with superior image quality and situational awareness.
