Cebu I.T. Park Deploys GKB High-Efficiency IP Solutions

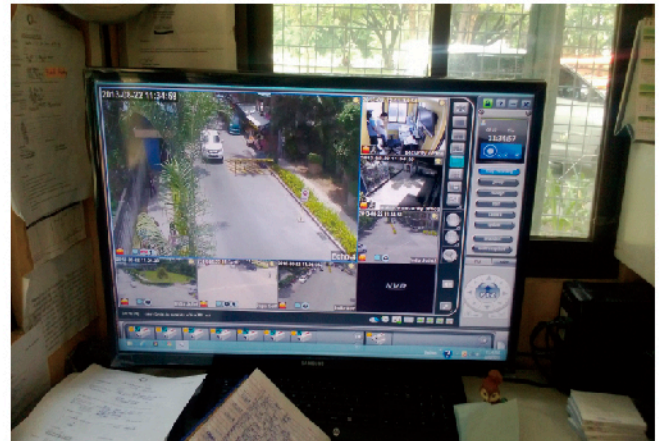

Background

Cebu I.T. Park is a 24 hectare IT economic zone and business park in Cebu City, Philippines. Developed by Cebu Property Ventures and Development Corporation, a subsidiary of Cebu Holdings Inc. Cebu I.T. Park had set Analog cameras and DVR in a community of high-rise buildings. The client faced low-end definition issue, therefore the client decided to substitute IP solution for analog cameras in community. Cebu I.T. Park aims to utilize high definition surveillance solution to secure its property.

Solutions

GKB provides High Definition IP DZ2801 cameras (720P Waterproof and vandal-resistant Speed Dome) for Cebu I.T. Park community to secure its premises. 10 GKB cameras are placed in the main intersections within the complex. Due to the demand of expandable installation plan, GKB offers free NVR 10, which supports live view & recording up to 64 CH. To help customer manage their cameras easily and efficiently, GKB also provides Cebu I.T. Park exclusive Cloud NVR for remote management via IE Browser and Smartphone. Cebu I.T. Park apparently can reach both servers to protect people and property.

Benefits

GKB IP solution is high value added product that has a superior managerial efficiency software and diverse camera functions.

- **Group Management:** GKB NVR 10 can manage up to 64 and it also can be grouped together in order to manage multiple cameras at once. GKB NVR 10 flexible management meets the Cebu I.T Park upcoming expandable plan.
- **NVR Cloud Hosting:** The major Cebu I.T. Park's tenants are satisfied with GKB IP solution. Tenants were not given permission to view.
- **Clear Crystal:** GKB IP Camera does not only provide High Definition video quality, but also meets Cebu I.T. Park's demands for vandal-resistance, Waterproof and WDR Cameras to fit outdoor environment. Cebu I.T. Park is deemed more than positive satisfactory results.
