

>>Success Story**CNG (Cipta Niaga Gas),
Jakarta, Indonesia****Background**

Cipta Niaga Gas is known for its' expertise in distributing high quality, first-class Compressed Natural Gas (CNG) with the safest equipment in Indonesia. The organization is engaged in critical aspects of the Compressed Natural Gas industry, which included Marketing, Transportation and Implementation.

The CNG plant needs to deploy HD cameras to monitor several key locations. The owner and managerial personnel also request to have easy remote access ability to all its' IP cams with the mobile phones as well as web browser. All of the network cameras in the plant are recorded with high definition video and saved in a recording device.

Solutions

GKB propose the Cloud NVR platform (IE access) and NVR10 software to fulfill the request from CNG. NVR10 will record all IP cams installed in the gas plant with reliable performance. The Cloud NVR platform allows the owner to manage and control all his IP cameras by one simple user name and password. All the owner need is the user name and password and he got access his whole gas kingdom.

**Benefits**

The benefits of using GKB Diplomat IP solution are plenty. Major benefits are easy access via IE (www.cloud-nvr.com; with user name and password) and mobile phone. The owner can manage the accounts and cameras easily. The stable NVR10 software provides reliable recording/monitoring purpose. The gas production in Indonesia is well known as the No.1 in the world. Therefore GKB is to be grateful and excited about the project success and looking forward the business opportunity this leading gas project will bring in for GKB.
