Jupiter Food Vietnam JSC

Background

Jupiter Foods Vietnam JSC Company is an overseas subsidiary of Jupiter Foods Private Limited in Singapore. JFV's business activities involve the production, marketing, selling, and distributing value added meat, seafood, and dairy consumer branded products both for the Vietnam domestic and overseas.

Solutions

JFV's new food manufacture plant is newly constructed. The owner of the facility is looking for a HD surveillance solution to monitor the entire production flow and factory premises. In this project, GKB proposed GKB DZ180 (Outdoor high speed 18X H.264 IP PTZ) * 1, 6 * D3622IR (Vandal proof dome, 1.3MP IR IP camera), 4 * GKB PTZ01 (Indoor 10X PTZ camera), and 16 * D6122 (Outdoor IR bullet 1.3MP IP cam). Beside the camera, GKB also supplied GKB NVR10 recording software, to record total 27 network cameras. The software also features with PTZ control; therefore, the security guards are able to move each PTZ camera and setup a patrol tour for each PTZ.

Client software of Viewer11 is also supplied, which allows authorized personnel to connect to the NVR10 Server to obtain live view video and download/playback the recorded video when it is needed. It provides high security to the cameras setting as others cannot access the cameras directly except the administrator.

Benefits

Using GKB Diplomat solution is very economical. The free NVR10 recording software allows end users to achieve high definition surveillance solution with minimum investment in recording. The ability of NVR10 is able to record up to 64CH network cameras @ SXGA resolution; as a result, the owner of JFV will not need to invest any license fees or change the structure in the future if more cameras need to be installed.
