Highlands Coffee in Vietnam Deploys GKB Diplomat IP Surveillance to Boost Chain Stores Safety

Background

Highlands Coffee is a brand of Viet Thai International Joint Stock Company (VTI). Highlands Coffee brand launched into high end hotels and supermarkets in 2000 via packaged Roast & Ground coffee. They opened their first café in October 2002. Till now, with over 50 cafés in Vietnam, Highlands Coffee is looking forward to upgrading their security performance into one single IP-based monitoring system that is proving capable of growing along with the development of the nation continues.

Highlands Coffee

Solutions

50 café shops of Highlands Coffee chain was guarded by GKB network cameras ensuring a secure shopping experience. The Highlands Coffee has installed 50 vandal proof IP domes (D34724) to monitor the entrances and cash desks in particular. Besides, GKB's unique Cloud platform is allowed the administrator to remotely control and manage each branch's video anytime, anywhere.

GKB D34724

Benefits

Centralized operations for greater efficiency and effectiveness

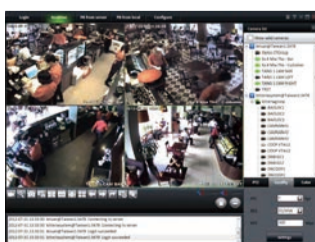

To control and manage all areas of multiple branches, GKB Cloud platform provides a range of unique features, combining high performance with simplicity of operation and intuitive interface and scaling management. Making Highlands Coffee Security Easier.

GKB Cloud NVR Platform

Complete chain store security network

GKB network camera offers real-time live viewing and recording which is perfect for preventing employee theft and securing coffee shops environment. GKB Envoy Viewer-11 is 64CH remote access PC-based software and able to play back up to 16ch 1080P resolution simultaneously with friendly digital zoom in for snapshot, live view, and playback.
