Strauss Group

Background

Strauss Group is an international company which is also the second-largest food & beverages company in Israel. Strauss Israel serves as the Group's home base for its global headquarters and the company's brand are also the leaders in the Israelis food market.

Solutions

Strauss Group covers large area ; therefore, GKB totally proposed over 60 * GKB D02 (Indoor 1.3MP network camera) to monitor each coffee shop of Strauss Group which means the cameras are spread all over the country and 1~2 cameras in each location (more than 50 locations). GKB also supplied **free** NVR10, a professional network video recording software for this project. The software is installed in several servers for recording different groups of network cameras. A central client software, Viewer11, is supplied to connect to different recording server for video playback and downloading. And the headquarter of Strauss could use monitor all sites at the same time and the owner also can provide different privilege to different users.

Benefits

GKB IP Diplomat solution is very economical and user friendly. The best things is that it's no need to purchase IP address to each site and can save a lot of money of monthly retainer. And the free NVR10 recording software allows end users to achieve high definition surveillance solution with minimum investment in recording. The powerful NVR10 recording software allows the owner of Strauss Group to expand the number of surveillance camera in the long run without additional license fee.
